By **Audrey (Adventure Club)**

My New Year's resolution
is to get better at loop jumps
in figure skating.

Three of the 30 bookmarks children created and donated to the Marpole Public Library for its "isolated residents" program.

**Ishaan
(Explorers Club)**

paints
"My dad,
my mom
and me
walking
in the
rain."

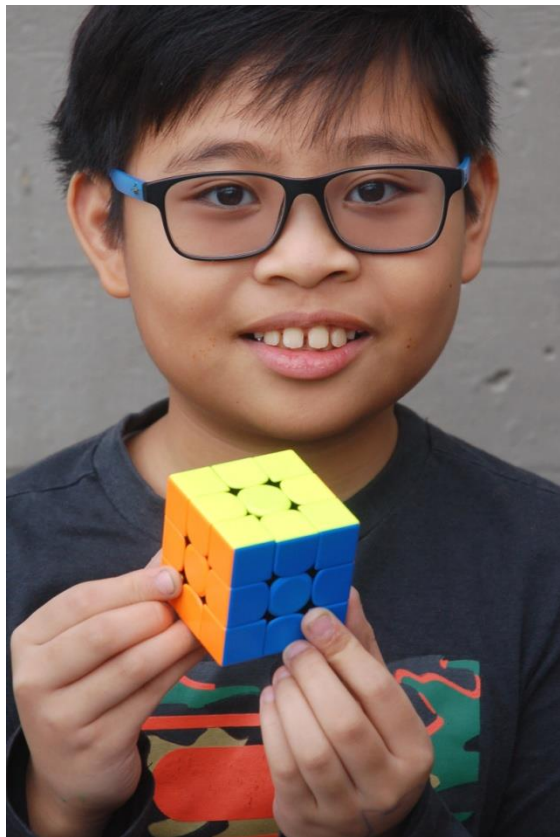

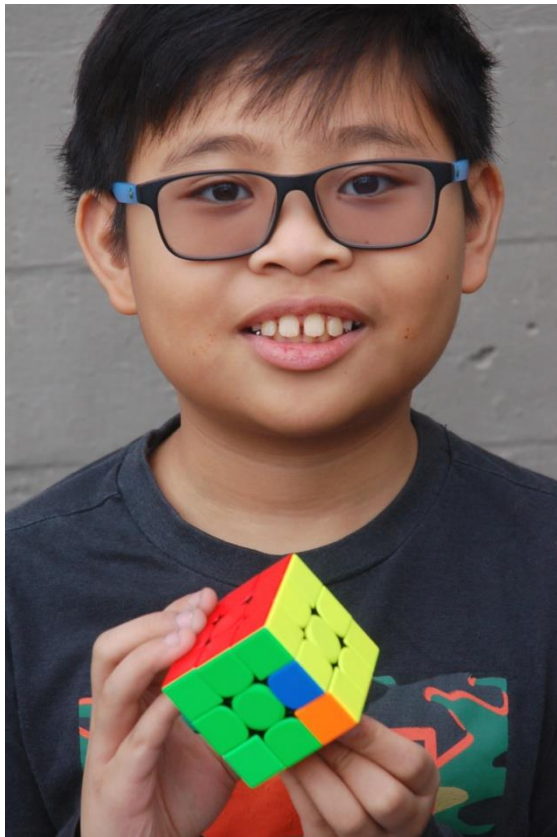

Labryinth is a challenge from start to finish

By Shaurya (Adventure Club)

Labyrinth is like a Pac-Man game. The holes are ghosts and the marble is Pac-Man. The numbers are the score. It is a fun and challenging game .

Rubik's cube turned and **solved in seconds**

By **David (Adventure Club)**

I start solving a Rubik's Cube by making a white cross. About 50 to 100 turns later it is solved. My fastest time is 25 seconds.

meal.

Three sets of twins can toast each other 'to: two too'

What is good and bad about being a twin? What do and don't you share?

Keenan

Good: eating together in the morning.

Bad: fighting.

We share clothes...

...not remotes.

Kieran (Explorers Club)

Good: making snow forts together.

Bad: hitting.

We share videos...

...not the same favorite TV show.

Deniz

Good: I can always play with someone.

Bad: when she annoys me.

We share an iPad...

...not my secret stuff.

Su (Discovery Club)

Good: we build Lego together.

Bad: when he copies me.

We share computer games...

...not beds.

Duncan

Good: to trick people.

Bad: people don't know who you are.

We share "faces"...

...not my Pokemon collection.

Winston (Discovery Club)

Good: not always lonely.

Bad: you don't get toys to yourself.

We share our family...

...not my food.

Snowboarding and donuts mean **whole day is good**

By **Yahli (Discovery Club)**

I went snowboarding lying on my stomach. It was very fun and fast.

I went snow boarding sitting down. It was okay.

I went snow boarding lying on my back. It was a little scary because I didn't know where I was going to stop.

I went snowbording trying to stand up. I slid off the board and landed on my feet. I fell down in the snow and someone told me it was time for lunch.

Later for Chanukah I had donuts.

Snowboarding was very good. Donuts were very good.

Doria (Preschool) uses a snow mask to play "I spy with my little eye" at the playground.

Walking the dog

A stroll at 8370 Cartier Street in January 2023 revealed:

Air hockey as a Do-It-Yourself project: we recycled last year's foam tube Quidditch brooms into ping pong table-edge borders; used paper-and-tape to make a puck; and recycled CDs into puck pushers by adding furniture sliders to one side. The "air" part? Exhaled cheers.

When **Adventure Club** played badminton at the front of the school the birdie landed in a tree. Obviously it was "nature calling". Such a racket.

"Swing sisters" **Elena (Discovery Club)** and **Isabella (Discovery Club)** can be found in the same spot at recess, lunch and after school. Reserved seats?

Unused COVID-19 face shields were restyled to hold picture cards so more children could play "What am I?" Hedbanz. The personal protective equipment was redirected from "global germ" to "guessing game".

Leon (Adventure Club) shot the soccer-hockey ball off **Eli's (Adventure Club)** head and crossbar. The call: "He shoots. He does not score. That's sockey!"

Photo: **Oliver (Discovery Club)** and **Katie (Discovery Club)** in plasma car chase. The notion of motion brings a need for speed.
