

## **See under the sea** art corner creations

By **Caitlin (Preschool)**

I painted fish, starfish and bubbles. I used my fingers and sponges.

Is luck right on cue? Chalk it up to a **new pool table!**

By **Patrick (Adventure Club)**

We've got a new pool table. It's better because the balls don't get stuck and you don't have to pull a ball return lever. We also got new cues and balls. I like to put chalk on once every two shots. I was last on the pool ladder challenge because I was out of luck but then I won a first round tournament match.

First we hunt and then we **hop with the Easter Bunny**

By **Emily (Discovery Club)**

We had a fun Easter egg hunt. Teams had to find paper eggs all over the back and lower fields. We found eggs taped on fences, soccer goal posts, picnic tables and the portables. We had to find six to spell E-A-S-T-E-R. After we found all of our eggs we got a treat from the Easter Bunny.

May is Child Care Month. Art by

**NASTIA**

**our children** hand-in-hand with **our community**

Spare Time Fun Centre offers pre-school and school-age child care. Our non-profit society has been at DLG school since 1974. Marpole is our backyard for fun and business. Find us at: 1350 West 67<sup>th</sup> Ave. 604-261-6612 / [stfc@shawbiz.ca](mailto:stfc@shawbiz.ca) / [www.sparetimefuncentre.com](http://www.sparetimefuncentre.com).

We put posters in Granville Street store windows from 64<sup>th</sup> to 71<sup>st</sup> Avenues to celebrate child care month. Two posters by **Adventure Club** artists.

## A little roll of big dice wins at **annual carnival**

By **Eddie (Explorers Club)**

I rolled four big dice at the carnival and won a coupon. My favourite game was golf. I sank four balls. I won 26 coupons. I got three prizes.

## Count on counting from 1 to 100 in **snakes and ladders**

By **Jeran (Explorers Club)**

I like to use a Hot Wheels car when I play Snakes and Ladders. I go up the big ladder from 41 to 85. The biggest snake is from 88 to 36. The winner is the first player to 100.

By **Zoe (Explorers Club)**

I roll the dice. I can count 1, 2, 3, 4, 5 or 6. I move my plastic circle.

# Walking the dog

A stroll in April 2012 at 1350 West 67<sup>th</sup> Avenue revealed

Bonsai bloomed in the art corner as **Explorers Club** added pink play-dough to small tree branches they found on a neighbourhood walk. Neat nature.

**Adventure Club** saw the first birdie of spring. A robin? No. A badminton. Spotted and swatted on the basketball court.

The princess and knight **Preschool** dress-up crowd is now firefighters, medics and other community helpers. Fantasy clothes are boxed up. It's time to work.

Jengahenge was built by **Adventure Club** as a wooden reproduction of the British stone wonder of the world. Is The Jenga Wall of China next?

How many people do you see wearing a "gi"? Karate class speaks Japanese in the Imagination Station so to get the right answer count "ichi, ni, san".
